

AN: 10/663,212  
Response Dated: March 29, 2006  
Reply to Office Action of March 1, 2006  
Docket No.: 75028-309286  
Page 8

### REMARKS

All pending claims 1-27 were subject to a restriction requirement in the Office Action mailed March 1, 2006. The claims were divided into two groups. By this response, the Applicant elects to prosecute the claims in Group I, including claims 1-22. The Applicant has withdrawn the non-elected claims without prejudice to pursuing these claims in a separate application at a further time.

In addition, the Office Action divided the application into three patentably distinct species:

Species I	Figs. 1-7, 10, and 14
Species II	Fig. 8
Species III	Fig. 9

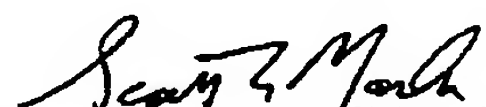

By this response, the Applicant elects to prosecute Species 1 in this application. This election is made without traverse. The claims readable on the elected Species 1 include claims 1-22.

Examination of the application is requested. No fee is believed to be necessary in connection with this response. Should an extension of time, or any fee be required, the applicant requests that this action be undertaken and our Deposit Account No. 06-0029 be charged for the fee.

Respectfully Submitted,

FAEGRE & BENSON LLP
